

## AGHORA AND EMANATION OF ATTRIBUTES

Triguna means the three primary macrocosmic [attributes](#). These are Motion or Rajoguna, Inertia or Tamoguna and Neutrality or Sattva Guna.

The blue envelope as proven on the left aspect of above determine is of the “sound of Ahum (i.e. Ahum Naad)” who by itself is south dealing with blue colored Aghora face of Sadashiva ...

The blue colored physique as is proven in the correct hand facet of above determine, is the astral automobile (or Sookshma Sharira) ... The astral car is also the symbolic-car (i.e. Linga Sharira) which itself is present in each aspirant of any of the thrice

Because the high quality of inertia (i.e. Tamoguna) has the best contact to the manifest state of the macrocosmic creation, so it will definitely is from Tamoguna that this emanation is primarily noticed ...

And since Tamoguna itself is a part of Ahum Naad (Sound of Ahum), so the better of all states to study this is “Ahum Naad (i.e. the Aghora face of Sadashiva)” itself ... This also renders the self-realization that was discussed earlier and was termed as “Guna Brahma”
